

KEY TO WEEKLY ROP STATISTICS

The data represented in the weekly report is for all [Renewable Operating Permit](#) (ROP) applications (those required under Title V of the Clean Air Act) processed by the State of Michigan. The spreadsheet includes all source applications including those that are active and those that have been voided. Some data elements may not be populated due to database limitations and/or data entry business requirements. In addition, the information contained in the spreadsheet may or may not be quality assured.

Specific permit information can also be found at the Title V Renewable Operating Permit (ROP) [Public Notice Documents list](#).
