1/2/2014

DEQ
Dennis Dunlap,

On December 9, 2014 staff of the AQD came out and was able to pick up an odor that resulted in them issueing a (Rule 901) violation.

We had set scheduled maintance of cleaning of our filter house on a quarterly basis. We had cleaned the unit down Dec 12th after we had talked with you so we believe by switching our maintance schedule to every 2 months will stop the reoccurrence of odors.

Thank you

Jerry Fryman
