

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
SOUTHEAST MICHIGAN DISTRICT OFFICE

DAN WYANT
DIRECTOR

March 10, 2014

Mr. Dennis Hillman
Global Enterprises
50450 E. Russell Schmidt Blvd.
Chesterfield Twp, Michigan 48051

SRN: A3037, Macomb County

Dear Mr. Hillman:

VIOLATION NOTICE

On February 25, 2014, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of Global Enterprises located at 50450 E. Russell Schmidt Boulevard, Chesterfield Township, Michigan. The purpose of this inspection was to determine Global Enterprises' compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); and the administrative rules.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Adhesive Spray Application	Rule 201	Company installed and operated 6 adhesive spray booths without a Permit-To-Install.

During this inspection, it was noted that Global Enterprises had installed and commenced operation of unpermitted process equipment at this facility. AQD staff advised Global Enterprises on March 7, 2014, that this is a violation of Act 451, Rule 201.

A program for compliance may include a completed PTI application for the adhesive spray booths. An application form is available by request, or at the following website:

http://www.deq.state.mi.us/aps/nsr_information.shtml#AUP

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by March 31, 2014 (which coincides with 21 calendar

days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

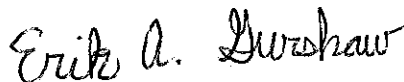

In addition, please provide a Potential-To-Emit (PTE) calculation for VOCs and Hazardous Air Pollutants (HAPs) from the 6 adhesive spray booths used at your facility. PTE is the maximum potential of emissions from a particular process or group of process equipment. Such a calculation needs to be made to determine the source category of your facility. Also include adhesive purchase records in your response to this Violation Notice. The State of Michigan's PTE workbook can be found at the following website:

http://www.michigan.gov/deq/0,1607,7-135-3310_4148-112202--,00.html

If Global Enterprises believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violation cited above and for the cooperation that was extended to me during my inspection of Global Enterprises. If you have any questions regarding the violation or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

Sincerely,

Erik A. Gurshaw
Environmental Quality Analyst
