Dear Mr. Kwiatkowski:

**VIOLATION NOTICE**

On May 2, 2019, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of SRS Fiberglass Products located at 331 West Laketon Avenue, Muskegon, Michigan. The purpose of this inspection was to determine SRS Fiberglass Product's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); and the Air Pollution Control Rules.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Fiberglass Molding and Curing	Rule 201	Failure to obtain a permit to install.

During this inspection, it was noted that SRS Fiberglass Products had installed and commenced operation of unpermitted equipment at this facility. The AQD staff advised SRS Fiberglass Products on May 16, 2019, that this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed PTI application for the fiberglass molding and curing process equipment. An application form is available by request, or at the following website: [www.michigan.gov/air](http://www.michigan.gov/air) (in the shaded box on the upper right-hand side of the page).

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant. However, certain processes and process equipment may be exempt from obtaining a PTI. Act 451, Part 2, Air Use Approval, Rule 278 establishes requirements of eligibility for exemptions listed in Rules 280 through 291. To be eligible for a listed exemption, the owner or operator of an exempt process or exempt process equipment must be able to provide information demonstrating the applicability of the exemption.

The AQD requests that SRS Fiberglass either demonstrate that equipment at the facility is exempt from the requirements of Rule 201 or submit a PTI application for the subject equipment.
