Dear Mr. Cobb:

VIOLATION NOTICE

On March 29, 2016, the Department of Environmental Quality (DEQ), Air Quality Division (AQD) conducted an inspection of Cannon-Muskegon Corporation located at 2875 Lincoln Street, Muskegon, Michigan. The purpose of this inspection was to determine Cannon-Muskegon Corporation's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules; and the conditions of the facility's Permits to Install (PTI).

During the inspection, staff determined the following:

Process Description	Rule/Permit Condition Violated	Comments
FGFURNACES	Permit to Install No. 374-89B	Use of undersized baghouse dust collector

It was determined that Cannon-Muskegon Corporation had a fire in the baghouse controlling emissions from FGFURNACES on September 16, 2014. The facility temporarily utilized a portable baghouse after the fire to allow for operation of FGFURNACES. The temporary baghouse had an air flow rate of 40,000 cfm, which is less than the 70,000 cfm baghouse described in permit to install application No. 374-89B.

Please submit a written response to this Violation Notice by May 30, 2016. The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
