Re: 9/20/16 Notice of Violation – Global Titanium Inc., 19300 Filer, Detroit, MI 48234

Dear Mr. Krawiec and Mr. Zynda:

This correspondence serves as the status report due July 5 regarding Global Titanium Inc.'s ("GTI's") investigation into the issues raised by the Notice of Violation referenced above.

A larger fan to remove sub-micron and oil particles, as referenced in GTI's April 3, 2017 status report, was installed on schedule on June 20, 2017 in Wash Building 2 ("WB2"). The new fan is operational and GTI is currently evaluating the optimal speed and operational protocols. One additional part has been ordered for the new fan and will be installed upon its arrival, at which time more follow up evaluation is anticipated.

Preliminary indications are that the new fan is an acceptable solution for any odor issues from WB2. No odor complaints have been received since GTI started its investigation of this issue. However, since odor complaints were intermittent and infrequent, further observation and evaluation will be necessary to confirm that this is a permanent and complete solution.

After further evaluation and confirmation that the equipment in WB2 continues to prevent odor events over an extended period, the tentative plan is to undertake a similar installation in Wash Building 1 (WB1").

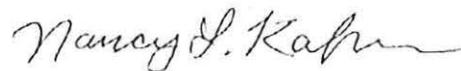

GTI continues to monitor the operations daily to make sure there are not any odors from the operations. We are not aware of any complaints from the neighborhood.

We will send you an updated status report on this matter within ninety (90) days. Please contact this office or GTI if you have any questions or concerns.

Very truly yours,

FOSTER SWIFT COLLINS & SMITH PC

Nancy L. Kahn
