

DEPARTMENT OF ENVIRONMENTAL QUALITY  
AIR QUALITY DIVISION

**FCE Summary Report**

Facility : LEFERE FORGE & MACHINE CO	SRN : B1659
Location : 665 HUPP AVE P.O. Box 1343	District : Jackson
	County : JACKSON
City : JACKSON      State: MI   Zip Code : 49204	Compliance Status : Compliance
Source Class : SM OPT OUT	Staff : Stephanie Weems
FCE Begin Date : 4/21/2016	FCE Completion Date : 11/1/2019
Comments : Scheduled inspection	

**List of Partial Compliance Evaluations :**

Activity Date	Activity Type	Compliance Status	Comments
11/01/2019	Scheduled Inspection	Compliance	Scheduled inspection
04/23/2018	MAERS	Compliance	Limits are 88.9 tons of SO2 and 20.4 tons for NOx so well below limits. Company is the process of slowly replacing oil fired furnaces with natural gas ones. Not clear why large increase in fuel usage from previous year but probably due to increased production. Company used emissions factors to calculate emissions. No compliance concerns.
05/09/2017	MAERS	Compliance	Not much change from previous year. Company is now using less distillate oil but more natural gas in their boilers/furnaces. No other concerns.
