Dear Mr. Malone:

**VIOLATION NOTICE**

On January 28, 2021, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted a review of opacity data for the timeframe of January 6-18, 2021 from Industrial Container Services - MI, LLC (ICS) located at 4336 Hansen Street SW, Grand Rapids, Michigan. The purpose of this review was to determine ICS's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 814-91B.

During the review, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Drum Reclamation Furnace	Permit to Install No. 814-91B, Special Condition 1.2 and Rule 301	Exceeded six-minute average of 20% opacity

During this review of data from January 6-18, 2021 it was noted that the drum reclamation furnace emitted opacity in excess of emissions allowed by PTI No. 814-91B, SC 1.2 and Rule 301 of the administrative rules promulgated under Act 451. The excess emissions occurred twice on January 7, 2021, once on January 12, 2021 and for two consecutive hours on January 17, 2021.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by March 4, 2021 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
