AIR QUALITY DIVISION
ACTIVITY REPORT: Other

B190957374

FACILITY: CWC Textron	SRN / ID: B1909
LOCATION: 1085 W. Sherman Blvd, MUSKEGON	DISTRICT: Grand Rapids
CITY: MUSKEGON	COUNTY: MUSKEGON
CONTACT: ROBERT R MEACHAM , MANAGER-SAFETY AND ENVIRONMENTAL	ACTIVITY DATE: 03/15/2021
STAFF: Eric Grinstern	COMPLIANCE STATUS: Compliance
SUBJECT: Off-site observations of facility for VE, odors	SOURCE CLASS: MAJOR
RESOLVED COMPLAINTS:	

Offsite observation of facility to evaluate compliance as part FY21 virtual compliance inspection.

Staff arrived in the vicinity of Textron at approximately 10:15. Observations were made from the public right of way around the facility. The facility was operating the cupola at the time of the observations as determined by the amount of steam from the cupola stack. During the time of the observations the wind was out of the east at 15-20 mph.

Observations were made from Sherman Blvd., Glenside Blvd., and Broadway Ave. Observations downwind on Glenside Blvd. showed a slight foundry odor. Observations showed no visible emissions from the stacks or building fugitive emissions. The cupola stack steam plume was white in color with a slight tail-off noted.

Staff departed the area of the facility at approximately 10:45.
