Dear Mr. Nuculovic:

VIOLATION NOTICE

On February 12, 2020, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an odor complaint investigation in the area surrounding Standard Coating located at 32565 Dequindre Road, Madison Heights, Michigan. AQD received complaints on January 10, 2020, February 11 and 12, 2020, regarding foul odors in the area.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
E-coat line with drying oven	AQD Air Pollution Control Rule 336.1901	Strong e-coat odor was verified downwind of Standard Coating.

The AQD staff determined that the source of the odors in the area was Standard Coating. Odors were detected downwind of Standard Coating, but not while upwind of the facility.

In the professional judgment of AQD staff, the odors that were observed were of sufficient intensity, frequency and duration so as to constitute a violation of Rule 901 of the administrative rules promulgated under Act 451.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by March 26, 2020 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
