This letter is to advise you of the commencement of escalated enforcement action against Stellantis, NV, FCA US LLC (Company) regarding state and federal air quality violations at the Detroit Assembly Complex Mack and the Warren Truck Assembly Plant. This letter follows the September 20, 2021, October 20, 2021, November 1, 2021, and November 3, 2021, Violation Notices (VNs) issued by the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD) which detailed violations of the Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), MCL 324.5501 *et seq.*, Rule 901 of the Michigan Air Pollution Control Rules, Mich Admin Code, R 336.1901, and the Company's Permit to Install (PTI) No.14-19A, EU-PRIMER Emission Unit, Special Condition IV.1, and PTI No. 13-19B, EU-PRIMERWEST Emission Unit, Special Condition IV.1.

Please note that the alleged violations in the October 20, 2021, and November 1, 2021, VNs are federally enforceable and are considered High Priority Violations (HPVs) by the United States Environmental Protection Agency (EPA).
