Dear Randy Lesniak:

**VIOLATION NOTICE**

On May 6, 2024, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection in the area near Michigan Sugar Company – Croswell Factory (MSC Croswell) located at 159 South Howard Street, Croswell, Michigan. The purpose of this inspection was to determine compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; the conditions of Renewable Operating Permit (ROP) number MI-ROP-B2876-2019a; and to investigate recent complaints which were received regarding foul odors attributed to MSC Croswell's operations.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Disposal ponds	R 336.1901 and ROP No. MI-ROP-B2876-2019a, General Condition 12	Odors downwind of various disposal ponds located south as well as southwest of the factory

In the professional judgment of AQD staff, the odors that were observed were of sufficient intensity, frequency, and duration so as to constitute a violation of Rule 901 of the administrative rules promulgated under Act 451 ("the Act") and General Condition 12 of ROP number MI-ROP-B2876-2019a. The findings were verbally discussed in detail with MSC's Eric Rupprecht and Meaghan Martuch on May 7, 2024.
