Mr. Tim Lazarz, Plant Manager
 Edw. C. Levy Company, Plant 6
 8800 Dix Avenue
 Detroit, Michigan 48209

Mr. Matt Perko, Environmental Engineer
 Edw. C. Levy Co.
 51445 W. 12 Mile Road
 Wixom, MI 48393

SRN: B4243, Wayne County

Dear Mr. Lazarz and Mr. Perko:

VIOLATION NOTICE

On June 7, 2019, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an investigation in response to a complaint of fallout in Detroit which occurred sometime between the late evening on June 6 and early morning of June 7, 2019. The scope of the investigation included the operations at Edw. C. Levy Plant 6 located at 13800 Mellon Street, Detroit, Michigan. The purpose of the investigation was to determine Edw. C. Levy's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules; and Renewable Operating Permit (ROP) No. MI-ROP-B4243-2016.

During the investigation, samples of the fallout were obtained and sent to a laboratory for analysis. Lab results indicate the composition of the samples are consistent with materials associated with slag processing at Edw. C. Levy's Plant 6.

Based on the investigation, the following violation was observed:

Process Description	Rule/Permit Condition Violated	Comments
Steel slag handling and processing operations	General Condition 12(b) of ROP No. MI-ROP-B4243-2016 R 336.1901(b)	Detection of fallout beyond the facility's property line, attributable to the facility, of sufficient magnitude as to constitute an unreasonable interference with the comfortable enjoyment of life and property.

Mr. Tim Lazarz
Mr. Matt Perko

July 16, 2019

Based on the analysis of the fallout samples, the proximity of your facility to the complainants' homes, prevailing wind direction on the dates the incident occurred, and past history of similar fallout incidents attributed to operations at Edw. C. Levy Plant 6, AQD staff has determined Edw. C. Levy Co. Plant 6 is the most likely source of the fallout. In the professional judgment of AQD staff, the fallout observed during this investigation was sufficient as to constitute a violation of General Condition 12(b) of ROP No. MI-ROP-B4243-2016 and R 336.1901(b): an "unreasonable interference with the comfortable enjoyment of life and property." A copy of the lab report is enclosed.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by August 6, 2019 (which coincides with 21 calendar days from the date of this letter). The written response should include: the date the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

Please submit the written response to the EGLE, AQD, Detroit District, at 3058 West Grand Boulevard, Suite 2-300, Detroit, Michigan 48202 and submit a copy to Ms. Jenine Camilleri, Enforcement Unit Supervisor at EGLE, AQD, P.O. Box 30260, Lansing, Michigan 48909-7760.

If Edw. C. Levy believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violation cited above. If you have any questions regarding the violation or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

Sincerely,

Jonathan Lamb
Senior Environmental Quality Analyst
Air Quality Division
313-456-4683
