RE: **Response to September 24, 2014 Violation Notice concerning emissions tests**

Mr. Deskins:

This letter is in response to your Violation Notice (NOV) concerning compliance with Special Conditions V.2 and V.3 of PTI no. 110-87E at Rieth-Riley's Benton Harbor facility located at 1589 Townline Road, Benton Harbor, MI. The notice indicated that testing for emission rates of carbon monoxide and particulate matter should have been completed prior to July 27, 2014.

Testing had been scheduled multiple times, both before and after the July 27, 2014 date, but due to changes in production schedules, primarily caused by rain, actual testing was not able to be scheduled and completed until October 9, 2014. Tests required for both Special Conditions V.2 and V.3 were completed on site at Benton Harbor on October 9, 2014, and collected samples are currently being evaluated and the required reports generated. Test results will be forwarded to your attention as soon as the reports are completed.

Please contact me at 574-875-5183 if you have any questions or need additional information.

Respectfully,  
RIETH-RILEY CONSTRUCTION COMPANY, INC.

  
John Berscheit,  
Technical Services Manager  
Rieth-Riley Construction Co., Inc.
