Re: SRN B6106, SRN B6107, SRN N8304

Dear Joseph,

On March 28<sup>th</sup> I received a Violation Notice for untimely filings of semi-annual notices and failure to conduct performance tests for the following Cloverland locations:

- 836 Highway M-134, Detour, Michigan (SRN B6106)
  - EUENGINE6
  - EUENGINE7
- 2536 West Highway M-28, Dafter, Michigan (SRN B6107)
  - EUENGINE4
  - EUENGINE5
- 335 Chippewa Avenue, Manistique, MI (SRN N8304)
  - EUDGPEAKER1
  - EUDGPEAKER2

The employee that was responsible for the filings is no longer in the employ of Cloverland Electric. I will assume the responsibilities of timely and accurate filings going forward.

Furthermore, as it relates to the performance testing of all engines at all sites, RFPs have been sent out to testing firms. The due date for proposals is Friday, April 19<sup>th</sup>. In the RFP, a completion date for the required emissions testing and filings was listed as June 30<sup>th</sup>. However, every effort will be made to coordinate with your staff and the testing firm selected for a quicker resolution to this issue. I will keep you informed as the testing process progresses.

Respectfully,

Roger Line  
Director of Generation  
Cloverland Electric Cooperative
