RESOLVED COMPLAINTS:		

On 6/29/16 I visited this facility. It was not in operation.

I have observed the plant many times over the past year. It appears to be operated infrequently if at all. It has not been manned for several years now. The last activity in the file shows a complaint in 2013 that was resolved. No additional complaints have been received.

I will continue to observe the plant when I am in the area to determine if the facility is still active.
