

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
KALAMAZOO DISTRICT OFFICE

C. HEIDI GREYER
DIRECTOR

June 26, 2018

Mr. Scott Schroeder
Perrigo Company
515 Eastern Avenue
Allegan, Michigan 49010

SRN: B7276, Allegan County

Dear Mr. Schroeder:

VIOLATION NOTICE

Under the state of Michigan's Air Pollution Control law and the federal Clean Air Act, a Renewable Operating Permit (ROP) program has been developed and implemented in Michigan. This program requires major sources of air emissions to obtain a facility-wide air use permit. This permit serves as a mechanism for consolidating and clarifying all air pollution control requirements that apply to the source. Rule 210(4) of Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), requires major sources submit an application to the Department of Environmental Quality (DEQ), Air Quality Division (AQD), not more than 12 months after a stationary source commences operation as a major source, as defined by Rule 211(1)(a) of Act 451.

Based on the issuance of Permit to Install (PTI) No. 416-93C and PTI No. 208-89B for Perrigo, located at 515 Eastern Avenue, Allegan, Michigan, an application for an ROP should have been submitted to the AQD by December 15, 2009. To date, the AQD has not received this application. This constitutes a violation of Rule 210(1) of Act 451, which requires that a source not operate any emission units at a source required to obtain an ROP unless a timely and administratively complete application has been received by the DEQ. As a result of the failure to submit a timely and administratively complete application in accordance with the requirements of Rule 210(4) of Act 451, Perrigo has failed to obtain an application shield. Please submit a complete application within 60 days from the date of this letter.

If Perrigo believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position. Potential to emit calculations should be submitted to the Kalamazoo District Office for all emission units located at: 515 Eastern Avenue, 490 Eastern Avenue, 500 Eastern Avenue, 506 Eastern Avenue, and 655 Hooker Road, Allegan, Michigan.

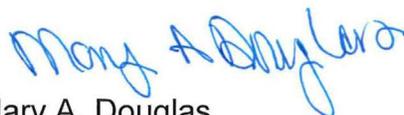

Mr. Scott Schroeder
