

**DEPARTMENT OF ENVIRONMENTAL QUALITY  
AIR QUALITY DIVISION  
ACTIVITY REPORT: Scheduled Inspection**

B783626396

FACILITY: FRAGO INC		SRN / ID: B7836
LOCATION: 200 CHERRY CREEK RD, MARQUETTE		DISTRICT: Upper Peninsula
CITY: MARQUETTE		COUNTY: MARQUETTE
CONTACT: Terry Bengry , Manager		ACTIVITY DATE: 08/12/2014
STAFF: Joel Asher	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Baghouses on silos		
RESOLVED COMPLAINTS:		

On 8/12/2014 I conducted an unannounced inspection of this facility. My contact was the Operations Manager, Mr. Terry Bengry.

The facility conducts operations in the same manner as in the past. Two processes are conducted at the site and both have a valid Permit to Install (PTI).

PTI #36-81 is for the block plant. This process is controlled by a baghouse on top of the silo. A log book is kept of inspection and maintenance activities done to the baghouse. The latest entries show the baghouse was inspected on 7/29/2014, and all the bags were replaced on 7/31/2014.

PTI # 554-82 is for the concrete batch plant. This process is fed by a split silo with separate baghouses for the cement side and the fly ash side. A log book is also kept for the inspection and maintenance activities done to these baghouses. The latest entries show the baghouses were inspected on 5/7/2014 and on 7/11/2014, 3 bags were replaced. The log books for both processes are kept in the batch plant operator's office.

A full set of bags were on site and were observed.

No complaints have been received regarding this facility and all operations appear to be operating efficiently and properly.

No violations of the Air Pollution Control Rules or PTI #36-81 or PTI # 554-82 were observed during this inspection.
