Response to Violation Notice, September 23, 2022

Bichler Concrete & Gravel - SRN: D0066, Delta County

Dear Ms. Luce:

I am writing in response to your September 23, 2022 Violation Notice. The Violation states that Bichler Concrete & Gravel's haul road processes were emitting opacity in excess of the limit allowed by Special Condition 1.2h of General PTI No. 79-00, therefore in violation of Rule 901.

On September 21, 2022, the day the inspection took place, it was extremely windy which was a contributing factor to fugitive dust. The driveway entrance and scale area in front of the office were swept on September 20, 2022. The person conducting the inspection noted that the driveway area was recently swept and clear of excessive dirt. A list of dates and hours logged by our employees of when the yard was watered was provided on the day of the inspection and is included with this letter. In addition to watering the yard, Delta County Road Commission was hired to apply calcium chloride to main traffic areas in the yard, from front entrance to back gate and around the shop area. This was done on 6/6/22 and again 9/27/22.

We will continue to monitor conditions and take action as necessary, including but not limited to watering the yard, ordering calcium chloride applications more frequently, and regular sweeping of the driveway entrance and scale area.

Please direct any questions related to this response to me at (906)786-0343.

Sincerely,

Cory Pangborn, President

Bichler Concrete & Gravel
