December 13, 2017

Chris Robinson  
Environmental Quality Analyst  
MDEQ, Air Quality Division  
Grand Rapids District Office

Dear Chris:

In regards to violation notice of November 20, 2017, corrective actions have been taken:

New thermocouple was installed and tested. Maintenance records are back on schedule, and after burner temperatures are being recorded.

I am working with ACE, the burnout manufacturer for the proper rain cap, and will let you know on their recommendation.

Should you have any questions, please let me know.

Sincerely,

Rodney Dobb  
President
