Air Quality Division
Michigan DEQ

Ms. Jenine Camilleri
Enforcement Unit Supervisor
DEQ, AQD

From: Brad Barnett
Plant Operations Manager
Facility Engineering and Construction
Sinai Grace Hospital
(313) 966-3015

Regarding DMC Sinai Grace Hospital DEQ Violation Notice:

Mr. Acevedo, and Ms. Camilleri,

Concerning the violations cited from the August 3, 2018 visit for emission records, PTI 176-16, Special Condition FG-BOILERS, VI. 1-4 and PTI 176-16 FG-GENSETS, VI. 1-5; we have completed and submitted the MAERS reporting forms on Nov. 14, 2018.

We have contacted Derenzo Environmental Services to set up an annual reporting schedule for our emissions as well.

In regards to Act 451 of 1994, as amended, 324.5522 (1) (b), Category II facility fee; we are awaiting information regarding our air emission fee; amount and where to send payment.

A few things occurred over the last few months that caused us to slip into the area of violation. Our last Manager left in May 2017, our Director of Plant Ops. resigned and left in May 2018. A new Director came on in August 2018 and has since resigned and left as of Nov. 9th. I have been Manager since the beginning of October, and am seeing now where we have been deficient.

I hope this information is sufficient and we can resolve things quickly. If there is anything you need please let me know.

Thank you,

Brad Barnett
