Dear Mr. Orozco:

**VIOLATION NOTICE**

On August 31, 2021, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of State Crushing East located at 25501 Sherwood, Warren, Michigan. The purpose of this inspection was to determine State Crushing East's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and to investigate a recent complaint which we received on August 23, 2021, regarding fugitive dust attributed to State Crushing East's operations.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Roadways and parking lots	R 336.1901	Rule 901(b) states, a person shall not cause or permit the emission of an air contaminant in quantities that causes unreasonable interference with the comfortable enjoyment of life and property. Fugitive dust was observed originating from the facility parking lots and roadways entering the atmosphere and onto residential property.

In the professional judgment of AQD staff, the fugitive dust that was observed was of sufficient intensity, frequency and duration to constitute a violation of Rule 901 of the administrative rules promulgated under Act 451.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by December 6, 2021 (which coincides with 21
