Pursuant to General Formulations Permit to Install 192-03G FG -C&NewMixroom, I am writing to notify the AQD the reason for the RTO malfunction has been repaired. The requested information updated MAP and the FG-TACs, Special Conditions I.1-6 data is included with this letter.

The attached records for April 2023 shows the abnormal condition did not cause an exceedance of any of conditions defined for FG-TACs. The MAP and the new addendum are also included.

If you have further questions concerning this abnormal condition please contact me at your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read 'K Seitz', written over a horizontal line.
