SRN: M4403, Wayne County

Dear Mr. Roberts:

### **VIOLATION NOTICE**

The Department of Environmental Quality (DEQ), Air Quality Division (AQD) has not received an application for renewal of Renewable Operating Permit (ROP) No. MI-ROP-M4403-2012 for DNR Inc. (DNR) located at 38475 Webb Drive, Westland, Michigan. In accordance with Rule 210(8) of Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), an administratively complete application for renewal of a ROP is considered timely if it is received by the DEQ not more than 18 months, but not less than 6 months, before the expiration date of the current ROP. The deadline for submitting the application was December 7, 2016.

Failure to submit a timely application constitutes a violation of Rule 210(1) of Act 451 which requires that a source not operate any emission units at a source required to obtain a ROP unless a timely and administratively complete application has been received by the DEQ. As a result of the failure to submit a timely and administratively complete application in accordance with the requirements of Rule 210(9) of Act 451, this facility has failed to obtain an "application shield."

Furthermore, on June 7, 2017, DNR's ROP will expire. In accordance with Rule 217(1)(c) of Act 451, the source will lose its "permit shield" upon expiration of the ROP. In addition, according to Section 5506(2) of Act 451, the expiration of an operating permit terminates the person's right to operate a source. Therefore, if the ROP renewal is not issued by June 7, 2017, and this source continues to operate after this date, DNR is in violation of Section 5506(2) of Act 451.

Please submit a complete application within 60 days from the date of this letter.

If DNR believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.
