

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF ENVIRONMENTAL QUALITY  
SOUTHEAST MICHIGAN DISTRICT OFFICE

DAN WYANT  
DIRECTOR

March 28, 2014

Mr. Bruce Kafarski  
J D Plating Co., Inc. (a.k.a. Chemical Process Industries, LLC)  
25428 John R Road  
Madison Heights, Michigan 48071  
SRN: N0792, Oakland County

Dear Mr. Kafarski:

**VIOLATION NOTICE**

On February 13, 2014, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of your facility located at 25428 John R Road, Madison Heights, Michigan. The purpose of this inspection was to determine your facility's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules and the conditions of Permit to Install No. 591-86.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Dip and Spin Coating Line	DEQ-AQD Administrative Rule R 336.1201(1)	Installing and operating the equipment/process without first obtaining a permit to install.

During this inspection, you informed AQD staff that you bought the assets of JD Plating Co., Inc. and clarified that you are operating the facility under Chemical Process Industries, LLC facility name. After conducting a review process, AQD staff determined that PTI No. 591-86 has not been officially transferred over to your officially registered company name that is operating at the above address. As such, the coating line is in violation of AQD Rule R 336.1201(1) for operating without officially a permit to install.

A program for compliance may include a request to transfer PTI No. 591-86 to your officially registered company name along with a company name change request for the facility address, or a completed PTI application for the Dip and Spin process equipment/coating line. An application form is available by request, or at the following website:

[http://www.deq.state.mi.us/aps/nsr\\_information.shtml#AUP](http://www.deq.state.mi.us/aps/nsr_information.shtml#AUP)

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by April 17 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

If the company believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violation cited above and for the cooperation that was extended to us during my inspection. If you have any questions regarding the violation or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

Sincerely,

Remilando Pinga  
Senior Environmental Engineer  
Air Quality Division  
586-753-3744
