List of Partial Compliance Evaluations :

Activity Date	Activity Type	Compliance Status	Comments
07/25/2023	On-site Inspection	Compliance	FY 2023 Inspection
05/12/2023	MAERS	Compliance	MAERS Report Submission. Emissions appear to be accurate. Removed reporting group and stack. Stack removed since emissions out of stack fall below the threshold levels for VOC. There may be an error involved in calculating the reported emissions. According to the facility contact, previous testing of the waste that they collect showed that 100% of that waste were VOCs resulting in the facility writing off 2,000 lbs. of emissions each month. During the upcoming inspection in July 2023, I will seek out more information and verify the validity of the 2,000 lbs. emission write off and will make changes if necessary.
07/22/2022	On-site Inspection	Non Compliance	Scheduled inspection.
