

DEPARTMENT OF ENVIRONMENTAL QUALITY
 AIR QUALITY DIVISION
 ACTIVITY REPORT: Self Initiated Inspection

N144934804

FACILITY: Logjammer Sawmill		SRN / ID: N1449
LOCATION: 6376 Dargitz, ROSCOMMON		DISTRICT: Gaylord
CITY: ROSCOMMON		COUNTY: ROSCOMMON
CONTACT:		ACTIVITY DATE: 06/01/2016
STAFF: Shane Nixon	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: ON SITE INSPECTION		
RESOLVED COMPLAINTS:		

AQD staff visited the Logjammer Sawmill in Roscommon County to perform an inspection to determine its compliance with Permit to Install No. 675-86 for a sawdust fired boiler. AQD staff observed that the boiler was not operating at the time of the inspection and no personnel were present. Staff visited the owner's home which is located adjacent to the sawmill and spoke with Mr. Bernard Olsen. Mr. Olsen indicated the water in the boiler has been drained but stated the boiler has been maintained and is still functional. At this time, he is unsure if he will use the boiler in the future and staff recommended he maintain the boiler in an operable state until he has made a decision. Staff will assess the status of the boiler in the future and determine if the Permit to Install can or should be voided at that time.
