SUBJECT: Scheduled inspection for FY17.		
RESOLVED COMPLAINTS:		

According to Permit Cards Connor Forest Industries applied for PTI #381-93 on 5/5/1993, for a mechanical dip tank. The permit was voided on 1/10/1994.

On 2/7/17 a site visit was made to the facility's former location in Wakefield. The visit proved difficult to find the site location. I stopped and talked with a facility nearby and was informed Connor Forest Industries closed operations in 1996. All equipment and buildings were removed from the location.

This facility can be removed from the district inspection database as they are no longer operating and no regulated equipment is on site.
