

DEPARTMENT OF ENVIRONMENTAL QUALITY  
AIR QUALITY DIVISION  
ACTIVITY REPORT: Scheduled Inspection

N198831165

FACILITY: CARROM COMPANY		SRN / ID: N1988
LOCATION: 218 EAST DOWLAND STREET, LUDINGTON		DISTRICT: Cadillac
CITY: LUDINGTON		COUNTY: MASON
CONTACT: Kim Asiala , Director of Finance		ACTIVITY DATE: 09/15/2015
STAFF: Rob Dickman	COMPLIANCE STATUS: Compliance	SOURCE CLASS: SM OPT OUT
SUBJECT: Scheduled inspection of this opt out source.		
RESOLVED COMPLAINTS:		

Inspected this opt out source pursuant to PTI Numbers 700-88A and 698-88A. My contact at the facility was Kim Asiala, Director of Finance. Prior to entering the facility, there were no visible emissions at any point.

PTI Number 700-88A is for two dip lines and three dry filter paint spray booths and 698-88A is for woodworking equipment controlled by a cyclone. The equipment under 700-88A is still in place and has not been in operation since approximately 2012. The facility wishes to maintain this permit and the operational flexibility associated with it.

The equipment under 698-88A is in service. This equipment is limited to 4000 hours of operation per year. Emissions from this equipment are limited to 0.10 pounds per 1000 pounds of dry exhaust gas, 12.6 pounds per hour, and 25.2 tons per year. The method of compliance with these limits is through tracking of hours of operation and MAERS reporting. For 2014, the facility operated 2400 hours and had approximately 1.5 tons of particulate emissions.

At the time of the inspection, this facility was in compliance with their applicable air permitting.
