CONTACT: CHUCK RENZE , OWNER		ACTIVITY DATE: 01/12/2016
STAFF: Joel Asher	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Waste oil furnace		
RESOLVED COMPLAINTS:		

This facility was formerly called Alex Creighton Company, and was issued Permit to Install (PTI) #1059-89 for a waste oil furnace.

On 1/12/16 I conducted an unannounced inspection of this facility. It is now called Chuck Renze Ford. My contact was Mr. Chuck Renze, the owner.

The waste oil furnace permitted under PTI #1059-89 has been replaced by a newer model about 3 or 4 years ago. The new unit is rated at 340,000 Btu/hour. Only waste oil generated on site is burned in the unit.

The new unit is exempt from needing an air use permit under Rule 282 (b)(iv).

A request will be sent to Ms. Sue Thelen in the Permit Section to void PTI #1059-89 as the old furnace has been removed. This facility will be removed from the UP District inspection database.

No violations of PTI #1059-89 or the Air Pollution Control Rules were observed during this inspection.
