Personnel present: Kelvin Whitcomb, Supervisor

Facility contacts: Brian Scheidler (bscheidler@daviscartage.com), Warehouse Manager

Glen Merkel (gmerkel@daviscartage.com), Owner

Purpose

Perform an unannounced, onsite compliance inspection to determine the operating status of The Colonel's and its compliance with Permit to Install (PTI) No. 510-90 for a waterborne prime spray booth and drying oven. There is no documentation in the AQD files suggesting that an inspection has been conducted here in the past.

Inspection & Facility Background

Kelvin Whitcomb, Supervisor, said that The Colonel's building burned down in 1993. The building currently at this address was built in 2008 and currently houses Davis Cartage Storage & Warehousing operations. K. Whitcomb said this facility is a warehouse predominantly for CongAgra foods, including Vlastic pickles.

At approximately 8:30 a.m. on April 19, 2022, I met with Kelvin Whitcomb, supervisor. I explained to him that I was there to determine if the permitted spray booth and associated drying oven were still present onsite. I verified on the plant floor that this is a warehouse for pickles. Because The Colonel's was burned down and this new facility stands in its place, there is no permitted equipment present at this location and PTI 510-90 will be voided because the equipment is gone.

The only equipment I observed onsite was propane-fired forklifts.

Compliance Statement

Davis Cartage appears to be in compliance with AQD Rules at this time.
