Erik A. Gurshaw
Environmental Quality Analyst
Air Quality Division

October 18, 2013

Dear Mr. Gurshaw:

In Response to the violation on September 24, 2013, State Crushing, Inc. has taken the following actions:

- Purchase a new water truck with a high spray capacity
- Implemented water yard program three to four times a day dependent on weather
- Installation of larger water pump on crusher
- Installation of sprinkler heads on all conveyor belts
- Plans to install hard surfacing of 1,000 square feet at the front entrance.

We hope these actions taken are sufficient to maintain dust control throughout the yard and concrete recycling operation.

Sincerely,

RJ Orozco
Vice President
State Crushing, Inc.
