Kerry Kelly
Environmental Quality Analyst
Permit # 936-91

I am writing you in response to the violation notice dated May 5, 2016 for Violation on April 14, 2016.

The violation was for "PTI #936-91 S.C. 16 "Operating crushing equipment without properly operating water sprays. And "R 336.1901" Fall-out on Vehicles". At the time of the violation our water supply could not be turned on do to unexpected freezing temperatures and possible freezing of waterlines (pump). We have since turned on the supply and our running it continuously while plant is operational. We are also in the process (a waiting the shipment) of new spray tips that should improve our spray output.

Thank you,

RJ Orozco - Vice President

State Crushing, Inc.
