SUBJECT: On-site Inspection		
RESOLVED COMPLAINTS:		

On May 27, 2021, I conducted an on-site inspection at Omega Cabinets located at 35468 Groesbeck Highway, Clinton Township, Michigan. The purpose of the inspection was to determine the facility's compliance with the requirements of the Federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), the Administrative Rules, and the facility's Permit to Install (PTI) No. 765-90.

To comply with the COVID-19 Emergency AQD Field Inspection Guidance Update (June 2020), the inspection was announced and scheduled. I set up the inspection via telephone call to Mr. Anthony Badalamanti, Building Owner, who agreed to meet me at the main entrance. I entered the facility wearing a face mask, face shield, safety glasses, hard hat, and safety shoes.

Mr. Badalamanti accompanied me during the walk-through inspection. He mentioned that he bought the building about a year ago and learned that the former occupants left a few years ago. During the walk-through inspection, I verified that all the wood cabinets processing equipment are no longer installed which included woodworking tools, spraybooth, glue/adhesive coating equipment, etc. A portion of the building is being rented out to a moving company, called College Hunks. The rest of the building is utilized as storage space for Mr. Badalamanti's supplies, etc., for his apartment building and miscellaneous commercial establishment businesses.

Since the equipment has been removed, I will be recommending to AQD Permit Section to void PTI No. 765-90. I did not find any non-compliance issues during my inspection.
