

**DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection**

N363348299

FACILITY: HARBOR STEEL AND SUPPLY		SRN / ID: N3633
LOCATION: 1060 JUDSON RD, MUSKEGON		DISTRICT: Grand Rapids
CITY: MUSKEGON		COUNTY: MUSKEGON
CONTACT: Matt Hoaglan , Facility's Director		ACTIVITY DATE: 04/03/2019
STAFF: Chris Robinson	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: FY'19 self initiated inspection to verify operating status and compliance status with respect to applicable air quality rules and regulations.		
RESOLVED COMPLAINTS:		

The purpose of this site inspection was to verify if the facility was still operating. CR arrived onsite at approximately 11:30 am on April 2, 2019 and met with one of the employees, Derrick P. Through observations and a quick discussion with Derrick, no coating of any kind is conducted at this location nor at their East Broadway facility. This facility is used primarily for warehousing but does utilize a metal break press and some lasers for metal cutting. There are no air emissions associated with the break press and the lasers appear to be exempt from Rule 201 permitting requirements per Rule 285(2)(1)(vi)(B). CR spoke with Mr. Matt Hoaglan, facility's Director later that day by phone, who confirmed earlier observations and discussion with Derrick.

Harbor Steel and Supply appears to be in compliance with applicable air quality rules and regulations. Continued AQD inspections of this facility are not necessary.
