Subject: Violation Response

Dear Ms. Kelly,

Paint Booth

To correct the violation and be in compliance we are requesting an exemption from R336.1201 by R336.1287 (c). Please see attached request to void PTI no. 154-93.

The violation with regards to the hourly emission limit was exceeded during the April 2013 through March 2014 time period. The violation is corrected as the most recent records provided indicate. We are keeping monthly records to prevent a reoccurrence.

CNC Laser Metal Cutting

We are currently preparing a permit to install application and expect to have it ready to submit within two weeks. We are currently in contact with Mr. Nick Zabrodsky and he is assisting us in the completion of the PTI.

Sincerely,

Kevin Williams
