Amerifleet manages car / sports utility vehicle fleets for automobile manufactures, car rental businesses, corporations, institutions, etc. All repair and painting jobs are outsourced and no painting and repair activity takes place at this site. Hundreds of mostly cars and some sports utility vehicles are stored at the site; some indoors and others outdoors. Security cameras are present. Fleet management (vehicle logistics service) principally involves moving vehicles from one location to other (e.g. Detroit to Chicago or New York).
