SUBJECT: Compliance inspection		
RESOLVED COMPLAINTS:		

On 10/8/2015 I visited the former site where Osceola Fiberglass used to operate.

The operation has ceased and is no longer located here. The building appears vacant and the property has a realtor sign posted by the drive. Ron Raisanen's inspection report of 10/30/2006 states there was no evidence of activity at the location and the facility appeared to be shut down.

Based upon my observations - and those of Ron's 9 years ago - the plant will be considered closed.

This facility will be removed from the UP Inspection database. A request will be sent to Sue Thelen to void PTI #518-93.
