RE: Letter of Violation Compliance

February 6, 2015

Dear Mr. Grinstern:

After a visit from the DEQ on January 14, 2015 we have received a "Letter Of Violation" This letter indicated that Tri-State Aluminum has failed to maintain records of the monthly tonnage of aluminum melted and daily records of fluxes used in pounds per day: since the visit we have implemented a "Daily Metal and Flux Usage Log". We have included a copy of the log for your review. The log will be completed on a daily bases by the Melt Technician and stored in the Melt Department for reference. Management will continue to follow up and insure that the log is being completed. At this time we feel that the new log will satisfy the requirements set forth by the Department of Environmental Quality. Please feel free to contact us with any questions or concerns that you may have.

Sincerely,

Dan Smith  
General Manager  
Tri-State Aluminum
