Dear Mr. Szakal:

VIOLATION NOTICE

On February 7, 2021, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), received a stack test report for Centurion Medical Products, located at 301 Catrell Drive, Howell, Michigan. The purpose of this stack test was to determine Centurion's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 24-94B.

During the review process, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Dry bed stack height.	Special Condition VIII.2 of PTI No. 24-94B	Dry bed stack parameters fail to meet the stack height requirement.

- RULE 201 VIOLATIONS

During this stack test, it was noted that Centurion's dry bed stack did not meet the 40-foot stack height parameter outlined in PTI No. 24-94B. On February 10, 2021, Centurion confirmed that the actual stack height of the dry bed scrubber is approximately 35 feet. The AQD staff advised Centurion on February 12, 2021, that this is a violation of special condition VIII.2 Of PTI No. 24-94B.

A program for compliance may include correcting the stack parameters to meet the requirements of PTI No. 24-94B.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by March 15, 2021, (which coincides with 21 calendar days from the date of this letter).
