RE: Violation Notice
PTI No.398-75A & 40 CFR 60.674 (b)

Mr. Bogner.

In regards to the Violations on our company Drayton Iron & Metal, Inc., on June 17th, 2022 please review the following:

Violation Notice PTI No. 398-75-A
EUPROCESS Section V
Special Condition 1

Timothy Johnstone, Yard Manager, will be attending On-Site EPA Method 9 Training. I can also have a third party come out to the yard to do the emissions testing before his training is complete. Yes, this Violation is ongoing however will be taken care and I will email the date of his training.

Violation Notice CFR 60.674 (b)

The Wet/Water Suppression System.

The system is checked on a daily basis, not monthly, to make sure the water is flowing properly along with the spray nozzles. Monthly checks are logged along with the amounts of Crushed Concrete being made and with the Watering System (done by a Water Truck and Fire Truck) schedule for the entire yard.

My apologies for the delay and if you should have any questions please do not hesitate to contact me.

Stacey Spurgeon
Administrative Assistant
