<b>FACILITY:</b> DXC Technology Services LLC		<b>SRN / ID:</b> N5490
<b>LOCATION:</b> 885 W ENTRANCE DR, AUBURN HILLS		<b>DISTRICT:</b> Warren
<b>CITY:</b> AUBURN HILLS		<b>COUNTY:</b> OAKLAND
<b>CONTACT:</b> Rock Hass , Owner		<b>ACTIVITY DATE:</b> 05/23/2023
<b>STAFF:</b> Shamim Ahammod	<b>COMPLIANCE STATUS:</b> Unknown	<b>SOURCE CLASS:</b> SM OPT OUT
<b>SUBJECT:</b> Conducted onsite inspection. The facility is no longer exists. PTI No. 11-11 has been voided.		
<b>RESOLVED COMPLAINTS:</b>		

On May 23, 2023, Michigan Department of Environment, Great Lakes and Energy (EGLE) staff, Owen Pierce, Shamsul Fahim, Marie Reid, and I (Shamim Ahammod) conducted a scheduled inspection of DXC Technology Services LLC (SRN: N5490) located at 885 W Entrance Dr, Auburn Hills, Michigan. The purpose of the inspection was to determine the company's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of the Permit to Install (PTI) No. 11-11.

### SOURCE DESCRIPTION

DXC Technology LLC is a data center for confidential information. They have four emergency generators which are permitted in PTI No. 11-11.

### Onsite Inspection

On May 23, 2023, at 11:00 AM, we arrived at the facility and were greeted by Rock Hass, the new owner of DXC Technology Services. We showed our photo credentials and explained the purpose of the inspection.

Rock Hass said they purchased the facility in December 2022. They don't have any intention to operate the four emergency generators. At the time of inspection, we observed they disconnected the electric line (see the attached picture) from the equipment. Rock Hass said they would like to remove the four emergency generators from this facility in a few weeks.

On 6/12/2023, I received a picture from Rock Hass that indicates all equipment has been removed from the facility. Rock Hass has also requested to void Permit No. 11-11.

On 6/13/2023, I sent a request to Laura Gramza, AQD Permit Section to void the permit. Laura Gramza confirmed that PTI No. 11-11 has been voided on June 22, 2023.

Based on the on-site inspection and review of the information, I found DXC Technology Services LLC (SRN: N5490) is no longer operating. Therefore, PTI No. 11-11 has been voided and the facility is permanently closed.
