Marco Grossi  
Facility Manager  
Collision Craftsmen  
14080 23 Mile Road  
Shelby Township, MI 48315

SRN: N5600, Macomb County

Dear Marco Grossi:

**VIOLATION NOTICE**

On March 1, 2023, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of Collision Craftsmen located at 14080 23 Mile Road, Shelby Township, Michigan. The purpose of this inspection was to determine Collision Craftsmen's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of General Coating Line Permit to Install (PTI) number 148-06.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Monitoring/Recordkeeping: One or more coating lines and all associated purge and clean-up operations.	General Coating Line Permit 148-06, FG-COATING Section VI. 3c	The facility did not record the gallons of each purge/clean-up solvent used per month.
Monitoring/Recordkeeping: One or more coating lines and all associated purge and clean-up operations.	General Coating Line Permit 148-06, FG-COATING Section VI. 3d	The facility did not record the VOC monthly mass emission rate in tons for each coating line which is to also include all purge/cleanup materials used.

<p>Monitoring/Recordkeeping:          One or more coating lines and all associated purge and clean-up operations.</p>	<p>General Coating Line          Permit 148-06, FG-COATING          Section VI. 3e</p>	<p>The facility did not record the VOC monthly mass emission rate in tons to determine the annual emission rate for each coating line per 12-month rolling time period which is to include all purge/clean-up materials used.</p>
<p>Monitoring/Recordkeeping:          All coating lines and all associated purge and clean-up operations.</p>	<p>General Coating Line          Permit 148-06, FG-SOURCE          Section VI. 1</p>	<p>The facility did not record the VOC monthly mass emission rate in tons to determine the annual emission rate for each coating line per 12-month rolling time period which is to include all purge/clean-up materials used.</p>

During this inspection, Collision Craftsmen was unable to produce monthly purge/clean-up material usage records, and accurate monthly and 12-month rolling VOC emission calculations as required in FG-COATING Special Condition VI.3 (c, d, e), and FG-SOURCE Special Condition VI.1 of the General Coating Line permit number 148-06.

This is a violation of the recordkeeping requirements specified in General Coating Line permit number 148-06. The conditions of General Coating Line permit number 148-06 require facility usage records be made available for review upon request by AQD staff.

Please initiate actions necessary to correct the cited violations and submit a written response to this Violation Notice by March 28, 2023. The written response should include: the dates the violations occurred; an explanation of the causes and duration of the violations; whether the violations are ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violations and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

Please submit the written response to EGLE, AQD, Warren District, at 27700 Donald Court, Warren, Michigan 48092, and submit a copy to Jenine Camilleri, Enforcement Unit Supervisor at EGLE, AQD, P.O. Box 30260, Lansing, Michigan 48909-7760.

If Collision Craftsmen believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violations cited above and for the cooperation that was extended to me during my inspection of Collision Craftsmen. If you have any questions regarding the violations or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

Sincerely,

Robert Joseph  
Environmental Engineer
