SUBJECT: Inspection of a Minor Source		
RESOLVED COMPLAINTS:		

On November 19, 2013, I attempted to conduct a Scheduled Inspection at EQ-The Environmental Quality, which used to be located at 2350 Brown Rd., Auburn Hills, Oakland County. The purpose of the inspection was to determine whether the source was existing and operating at the said location. The inspection was also to determine the source's compliance status with the State and Federal Air Quality Rules & Regulations.

Upon arriving at the above location, I discovered that the facility did not exist at the above location any more. Oakland Heights Development (N6008), a solid waste disposal (landfill) facility occupies the above location. The landfill is now owned and operated by Republic Waste Services, Inc. AQD inspections at the landfill are conducted by Erik Gurshaw.

At the landfill, I met with the landfill manager, Mr. Bill Dolsen. He informed me that EQ Environmental was located at the landfill location, but they sold the property to Allied Services in the 1990's and departed the site.

No further inspections should be conducted at EQ Environmental and their name should be removed from the AQD Files.
