

In response to violation notice.

Violation date: March 6, 2020 Inspection performed by Cody Yazzie

The cause of the violation was that I did not have purchase/usage records readily on hand of the coatings used by Signature Cabinetry and Millwork LLC. The violation has been ongoing since the establishment of SCM which is 01-23-2020 (approximately 3 months). Attached to this letter are purchase records for 2020. The violation is no longer ongoing. To resolve the issue, effective immediately, SCM will print out monthly purchase reports of the finish that is bought from suppliers (approx. average 7 gallons a month, or 80 gallons a year) to show SCM's monthly coating usage to comply with permitting exemption Rule 287(2) (c) attached for reference.

Regards,

Eric Vander Toorn
