Re: Renewable Operating Permit (ROP) Renewal Application Response to Violation
Notice Issued May 7, 2015
Granger Electric of Brent Run, LLC.
MI-ROP-N5987-2010a (Section 2)
Project Number 150305

Cornerstone Environmental Group, LLC (Cornerstone), on behalf of Granger Electric Company (Granger) submits the attached revised ROP Application Form (Part C, Item C7), Malfunction Abatement & Preventative Maintenance Plan and Responsible Official form for Section 2 of the ROP in response to the Michigan Department of Environmental Quality (MDEQ) Violation Notice issued on May 7, 2015. Brent Run Landfill (Section 1) of the ROP is responding under separate correspondence to the Violation Notice with regards to items noted under Section 1.

The Malfunction Abatement & Preventative Maintenance Plan was not submitted because Granger had previously provided MDEQ with a copy of the Plan and no changes have been made since that submittal. Because MDEQ already has a copy of the Plan, Granger believes the intent of an Administratively Complete submittal was satisfied. Because of this, please retract this finding.

Thank you for bringing these matters to our attention. We trust that the enclosures provide all the information needed to complete processing of this application. Granger and Cornerstone will be happy to cooperate with MDEQ to ensure that the ROP renewal will be issued by October 28, 2015. If you have any questions regarding the attached reports, please contact Mr. Dan Zimmerman at (517) 371-9711 or the undersigned at (845) 695-0221.
