CONTACT:		ACTIVITY DATE: 02/14/2023
STAFF: Scott Evans	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: On site inspection to assess compliance with air quality rules and regulations. Facility was found to be closed.		
RESOLVED COMPLAINTS:		

On February 14, 2023, State of Michigan Department of Environment, Great Lakes, and Energy Air Quality Division (AQD) staff member Scott Evans (SE) arrived at the former Chemtec Solutions Inc. facility located at 476 W. Sherman in Muskegon, Mi, to assess compliance with air quality rules and regulations. In the previous inspection conducted in 2017, it was reported that the facility had ceased previous plating operation and was only conducting assembly of parts that were machined at other facilities. Upon arrival at the address, it was confirmed that the location no longer is owned by the company and has since been converted into a boat storage warehouse facility. As such, there are no processes that need inspection for air quality compliance. The facility will be classified as permanently closed.
