Dear Anthony Rau:

VIOLATION NOTICE

On August 24, 2023, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted a complaint inspection of Roseville Crushed Concrete located at 29765 Groesbeck Highway, Roseville, Michigan. The purpose of the complaint inspection was to investigate fugitive dust complaints the AQD received on May 10, May 17, and May 19, 2023, attributed to the non-metallic mineral processing operations at Roseville Crushed Concrete.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Site Roadways	PTI 143-11A – Appendix B: Nuisance Minimization Plan Fugitive Dust, Section I (G)	The exit of the roadway must have rumble strips that are appropriately designed and maintained to minimize track-out.

In the professional judgment of AQD staff, the soil and sedimentation track-out material that were observed were sufficient so as to constitute a violation of Rule 901 of the administrative rules promulgated under Act 451, General Condition number 6 of PTI number 143-11A, and Appendix B: Nuisance Minimization Plan Fugitive Dust, Section I (G).

AQD staff observed soil and sedimentation track-out material on the southbound travel lanes of Groesbeck Highway due to exiting truck traffic.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by September 20, 2023 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violations occurred; an explanation of the causes and duration of the violations whether the violations are ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violations and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
