Dear Mr. Popp:

**VIOLATION NOTICE**

On March 9, 2016, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of Enviro Tech Coatings located at 1900 Austin Street, Midland, Michigan. The purpose of this inspection was to determine Enviro Tech Coatings' compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 52-00C.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Spray Booth 1	PTI 52-00C FGSPRAYBOOTH5 I.2	Pounds per month VOC limit was exceeded (2,717 vs 2,000)
FGFACILITY	Permit 52-00C FGFACILITY VI.2(e)	Records were unavailable for individual hazardous air pollutants (HAPS) on a 12 month rolling time period.

During this inspection, emission records had several deficiencies. Several corrections and submittals were subsequently provided over time but problems still remain. In addition to the violation cited above, the records lack appropriate units and nomenclature.

The conditions of PTI number 52-00C require maintenance of records, which shall be made available for review upon request by the AQD staff.

Please initiate actions necessary to correct the cited violations and submit a written response to this Violation Notice by July 21. The written response should include: the

If Enviro Tech Coatings believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violations cited above and for the cooperation that was extended to me during my inspection of March 9, 2016.
