SUBJECT: Compliance inspection.		
RESOLVED COMPLAINTS:		

**N6822 Compliance inspection**

N6822 is a portable crusher permitted under PTI 154-00 originally permitted to H&D, Inc. a company that was purchased in whole by Rieth-Riley in 2005. The plant was permitted at what was then the H&D Bayshore pit at 6611 US-31 North in Charlevoix County. The Bayshore pit is now owned by Rieth-Riley. The AQD has not received any relocation notices for this equipment.

On 5/27/2015 I travelled to the Bayshore pit to determine the status of the portable crusher referred to in the permit application as EUPLANT430. EUPLANT430 consists of one Cedar Rapids jaw crusher. Rieth-Riley maintains an office and garage at the Bayshore pit. I spoke to a woman at the office who recommended I speak with Mr. Brad Shearer of Rieth-Riley. He was out of the office at that time but she provided his phone number and I called him from that location.

Mr. Shearer was familiar with the equipment as he had previously worked for H&D. He stated that the equipment had originally been purchased from Elmer's and had been re-sold about 10 years ago but he could not recall who it was sold to. The sale potentially pre-dated Rieth-Riley's purchase of H&D.

I informed Mr. Shearer that as a result of this information I would request the permit be voided based on its past sale. I made this request to AQD Permits Unit on 5/29/2015. This source can also be removed from MARES.
